

# Prodigy® Color-on-Demand® Instant Color Selector

*Powder color changes in  
less than 20 seconds*

## **Prodigy Color-on-Demand with HDLV® Technology**

Prodigy Color-on-Demand with HDLV (high-density powder, low-volume air) technology is all about **ultra-fast color changes in less than 20 seconds** for more color changes per shift and higher productivity.

The Prodigy Color-on-Demand instant color selector\* combined with the Prodigy manual gun system\*, provides an integrated solution for precision dispensing and ultra-fast, contamination-free color change.

The system features a touch-screen color display with user-configurable buttons that can be set for size and color identification at the touch of a button.

Prodigy Color-on-Demand can accommodate up to 28 colors at one time for more color changes per shift, higher throughput, and just-in-time manufacturing for zero inventory and improved production efficiency.

## **Features of Prodigy Color-on-Demand**

- **Less than 20-second color change**
- Full-color touch-screen display
- User-configurable buttons for size and color identification
- Accommodates up to 28 colors per operator
- Automatic purge cycle cleans entire feed line from hopper to gun
- No manual changing of colors required

*Prodigy® manual spray gun is automatically purgeable with either continuous or pulse purge.*

*\*Patents applied for*

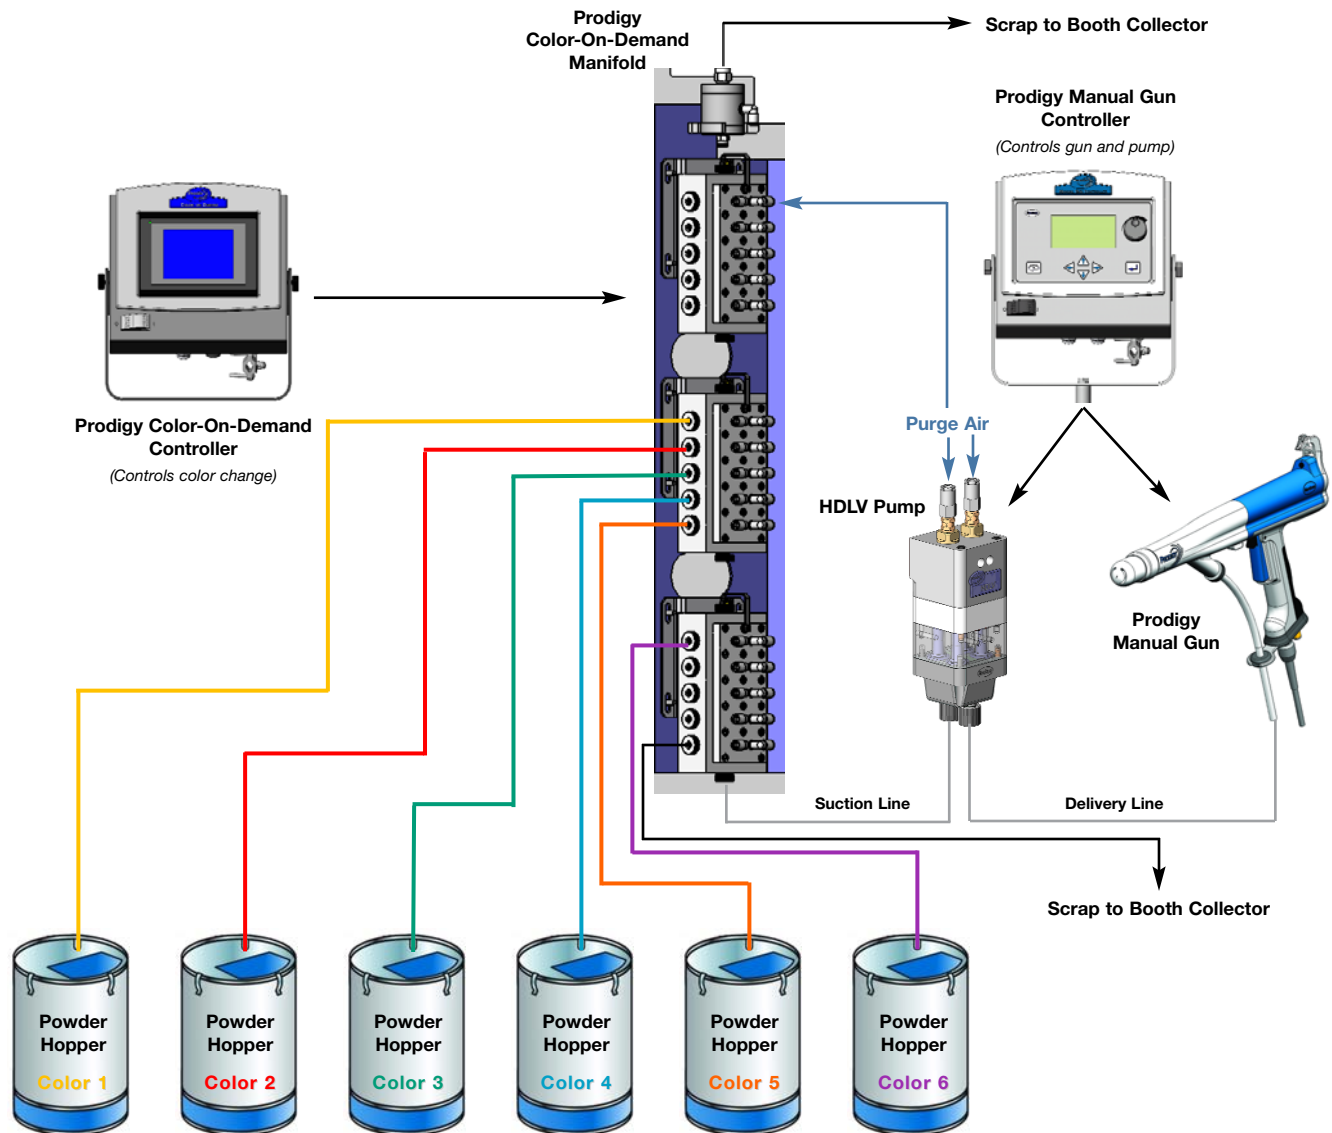

*Prodigy® Color-on-Demand® instant color selector is designed for precision dispensing and ultra-fast contamination-free color change.*

## **Features of Prodigy Manual Gun System**

- HDLV technology for more powder with less air
- Lower powder velocity
- Higher transfer efficiency (TE)
- Efficient coating at faster line speeds
- Better coverage in corners and cavities

# Prodigy® Color-on-Demand® Instant Color Selector

Accommodates up to 28 colors, loaded and ready to go
